## ABOUT US

Anshu Power Drive Engineering Industries., an ISO 9001:2015 Certified company, established in the year 2018 built on integrity with a commitment to reliability and developing quality products and mutually beneficial partnerships with clients and suppliers. Anshu Power group adopt to the changing needs of the sectors using leading edge technology, processes and systems.

Anshu Power offer a wide range of services like overhaules, erection& commisioning, troble shooting, field services and supply of all Roatining equipment spares.

Given the logistic, access and timing restrictions frequently encountered in a shutdown environment, our dedicated crew of multi-disciplined technicians has repeatedly proven to be the most productive, flexible and cost-effective solutions.

One-Stop-Shop for total power plant services in the activities of Overhauling, services, repairs, Retrofits, manufacturing of all TG-Set Spares, Erection, testing & commissioning of all makes.

Our areas of expertise are:

- Erection & Commissioning/ Commissioning Support
- Operation & Maintenance
- Overhauling
- Repair & Refurbishment
- Modernization & Upgradation
- Field study / RLA Studies
- Reverse Engineering
- Manufacturing and Supply of spares

We can cover all mechanical and electrical / controls work on these items of rotating machinery and associated ancillary plants like Power plants, Process Industries such as Refinery & Petrochemicals, Fertilizers, Sugar Industries, Minerals, Cement, Metal Industries.

IS PROVIDING ALL ROTATING EQUIPMENTS SPARES & SERVICES

## vision & mission

### Vision

Our vision is to become a global engineering service provider for all Rotating Equipment's, and we do this by in time delivering with latest engineering technics with stringent.

### Mission

To develop cost effective quality products and services with customer satisfaction level. To continually upgrade our skills and systems.

## our strength

Our key people are the professional Engineers and expertise in the filed of roatating equip-ment. We have been continuously strive to achive excellence by updating ourselves with the latest technology through consultants from educational and R&D institutions, in order to live up to the expectations of the customers in term of Quality, Delivery, Reliability in Supplies and Technical services.

### quality

ANSHU POWER is committed to continuous improvement in all functions of the work execution and all activities are carried out in accordance with a comprehensive suite of management systems.

### safety

ANSHU POWER is dedicated to the continuous improvement of healthy and safe work practices and providing the systems, training and support to foster a safety culture.

**IS PROVIDING ALL ROTATING EQUIPMENTS SPARES & SERVICES**

## Turbine Overhauls

1

All Overhauling, Maintenance and Troubleshooting of Steam Turbines, Centrifugal Compressors, including Governing System, Gear Boxes, Generators and Pumps supplied by different OEM's.

## Generator Overhauls

2

Overhauling, electrical testing of all make generators and supply of spares like journal bearings, seals etc.

## Cryogenic Cleaning (Dry ice)

3

Dryice Cleaning of genetator rotors and Stators. Main purpose of Dry ice cleaning is, it is non-conductive, non-toxic and non-abrasive.

## Erection and Commissioning

4

Erection and Commissioning of Turbo Generator sets & its auxiliaries.

## Repairs and Reconditioning

5

We are under tacking all types of Repaires, recondition of TG sets, pumps and compressors
